

ICTUSnet within the Interreg Sudoe programme

ICTUSnet final event
29th July 2021

Cooperar está en sus manos

www.interreg-sudoe.eu

Health projects in the Interreg Sudoe programme

- ✓ 8 projects (out of 95 approved) directly related to health issues
- ✓ Global cost: almost 12,3 M € (among which 9,2 M € ERDF subsidy)
- ✓ These projects deal with:
 - Improving available technologies for autonomy of elderly people
 - Networking to improve cancer treatment
 - Offering new tools to follow up chronic diseases in children and teens
 - Carrying out cutting-edge scientific research (hypoacusis, myocardial infarction)
 - Upscaling public buyers to enhance innovative procurement
 - Improving follow-up of strokes (**ICTUSnet**)

Who is involved in health projects in Interreg Sudoe?

What makes ICTUSnet so special to us?

- Focused on upscaling regional capacity to respond to strokes (registers)
- Smart use of artificial intelligence to optimise protocols and processes
- Comprehensive tool that will allow to understand better the pathology
- Relevant implication of patients and stakeholders

Thank you for your attention!

Have a nice final event.

Alexandre Le Gall
Project Officer
Interreg Sudoe Joint Secretariat
